June 2013 Outreach Efforts and Response Summary.....	T-450

You're invited

to a B3 Landowner Meeting

As part of the on-going public outreach effort for the Illiana Corridor Project, the Illinois and Indiana Departments of Transportation (DOT) are holding multiple rounds of meetings specifically for property owners with land located within the current B3 corridor. The study is progressing through the Tier 2 phase of environmental planning. The location of the Illiana corridor will change throughout this phase, and the DOT wants to keep you

informed of these changes and other project development activities throughout the duration of the process.

The first round of meetings are set to take place at times and locations noted below. The meetings will start promptly at 5:30 pm with a brief presentation on the next steps of Tier Two of the project. The remainder of the meeting will be spent in groups to discuss your questions regarding your property as well as to provide an opportunity for you to meet your Landowner Relations Representative (LRR).

Your participation at one of the five meetings is strongly encouraged.

*Reserve a spot for one of our meeting locations **TODAY!***

Space is limited at some locations

Please reserve a spot at one of the locations by **February 13, 2013**. RSVP by calling **1-855-455-4650**, or by sending your response via our comment page at **www.illianacorridor.org/get_involved**.

Please note which meeting you plan to attend, and provide your property PIN number(s) when calling or e-mailing.

LANDOWNER MEETINGS

B3 Corridor Landowner Meetings

February 19-21, 25, 28 2013

Tier Two

Purpose

Tier Two

- We understand this is a sensitive process
- Goal is to keep you informed
- Letter opens up direct communication
- Introducing points of contact
- Collecting contact information
- Questionnaire is voluntary to help us reduce impacts

Tonight's Agenda

Tier Two

environment
nation

- B3 Corridor – Further studies
- What happens in this next tier?
- Opportunities to stay involved
- Landowner Relations Representatives
- Landowner Stations: What to expect
- Next Steps

B3 Corridor – Further studies

- Data Collection/Surveys
 - Ground
 - Environmental
 - Drainage
 - Geotechnical
 - Property Line

Alignment Studies

Bridge/Drainage Studies

Studies of Sensitive Environmental Features

Studies of Underground Conditions

Financial Studies

Land Acquisition Studies

B3 Corridor – Access Protocol

Tier Two

- Study data is important to refinement and minimization of impacts
- Team recognize sensitivity of entry
- Notifications of study work have been sent
- Advanced and post notice of work will be provided

ILLIANA CORRIDOR
PARTNERING FOR PROGRESS

Survey Teams for the Illiana Corridor
have visited or will visit your property on:

WE ARE HERE

Public Meeting
April 2013

Public Meeting
Early Summer 2013

Public Hearing
Fall 2013

What Happens in the Second Tier?

Tier Two

- Determine best working alignment within the 2,000 ft. planning boundary
- Refine to approximate 400' (+/-) conceptual roadway
 - Coordinate with communities land planning
 - Coordination with schools, emergency services
 - Find mitigation and enhancement options
 - Locate interchanges
- Alignment location will move
- Actual alignment will be determined fall 2013

Opportunities to Stay Involved

- *Small group meetings*
- *Public meetings*
 - *Website*
 - *Newsletters*

On-site Landowner Meetings

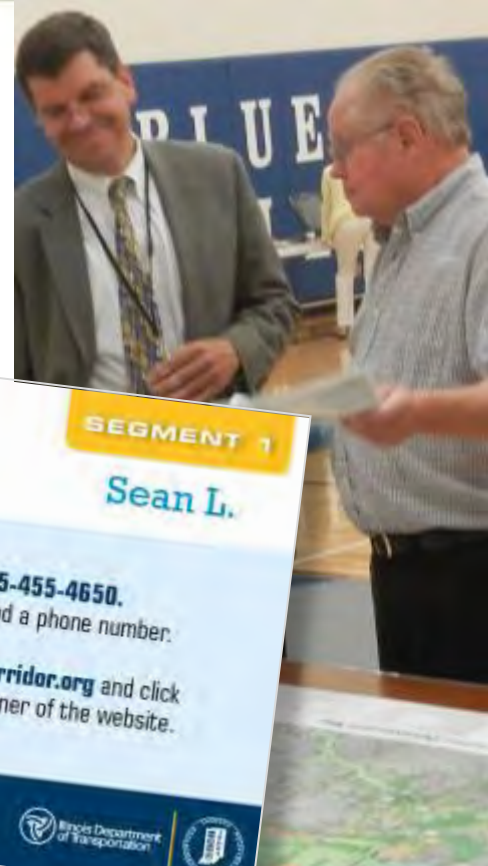

T-047

Landowner Relations Representatives

Tier Two

What is the purpose of the Representatives?

- Each landowner assigned a Landowner Relations Representative
- Direct personal contact throughout the process.
- The person who will provide you with **FACTS**. Quickly.

Landowner Information Line at:
1-855-455-4650

Email correspondence by visiting:

www.illianacorridor.org

and click **Submit a Comment/Question**

Landowner Stations: What to Expect

Tier Two

- Station assignments
- Landowner questionnaire
- Discuss:
 - ✓ farm operations
 - ✓ overpass/underpasses
 - ✓ Potential road closure locations

Road Closure Determination Process

Tier Two

Next Steps

Tier Two

- Gather input and additional technical findings
- Land surveys continue
- Property owner on-site meetings
- Determine right-a-way footprint by Public Hearing – fall 2013

Tier Two Public Meeting #1:
April 2013

News Release

FOR IMMEDIATE RELEASE:

March 29, 2013

CONTACTS:

Jae Miller IDOT (312)814-569

Jim Pinkerton, INDOT (219)325-7455

****Public Notice****

SECOND TIER OF THE ILLIANA CORRIDOR STUDY KICKS OFF Public Meetings to be Held

Springfield, IL and Indianapolis, IN - The Illinois Department of Transportation (IDOT), the Indiana Department of Transportation (INDOT), and the Federal Highway Administration (FHWA) completed the first tier of the Illiana Corridor study project in January 2013 with approval of the Record of Decision (ROD), advancing one corridor and a no-action alternative into the second tier of the project.

The second tier of the study project shifts the focus from the original broad 952 square-mile study area to the communities, landowners, and access needs along the preferred corridor. It includes more detailed engineering and environmental studies, and is expected to be completed early 2014. Funding alternatives will also be considered, and both States have adopted Public Private Partnership (P3) legislation, which allows the Illiana Study to use private investment for the financing, construction and operation of a transportation facility.

The recommended corridor, "B3," extends from I-55 near Wilmington, Illinois 46.8 miles east to I-65 near Cedar Lake, Indiana, and was identified as the preferred corridor alternative during the first tier of the planning process.

IDOT and INDOT will host the first round of open house public meetings for the Tier Two Illiana Corridor study. The purpose of these meetings is to explain the Tier Two process, which includes refinement of the preferred corridor; interchange locations and layout; determining overpass and underpass opportunities; environmental analysis; and continued stakeholder outreach.

The public meetings will be held at the following times and locations:

ILLINOIS

Tuesday, April 16, 2013

5:00 – 8:00 p.m.

Peotone High School

605 West North Street

Peotone, IL 60468

INDIANA

Thursday, April 18, 2013

5:00 – 8:00 p.m.

Lowell Middle School

19250 Cline Avenue

Lowell, IN 46356

-more-

News Release

The kickoff of the second tier of the project represents an important milestone for the Illiana Corridor. The expressway will reduce the strain of truck traffic on local roads, improving safety, cutting commuting times, reducing congestion, and improving accessibility to jobs. Environmentally, it will help by reducing the number of travel hours and fuel wasted due to cars and trucks caught in congestion. IDOT and INDOT estimate the project will create or retain more than 9,000 construction jobs immediately, and more than 25,000 long-term jobs.

Another important component of the Illiana planning process, beginning in 2013, will be a study of funding, financing and implementation options, including the feasibility of Public-Private Partnerships (P3). P3 offers a unique opportunity to bring new investment dollars into the state and deliver much needed new jobs and travel benefits more quickly than conventional methods of project delivery.

**The meeting is accessible to individuals with disabilities. Anyone needing specific assistance should contact Sarah Copeland of Images, Inc. at (630) 510-3944. Persons planning to attend who will need a sign language interpreter or other similar accommodations should notify the TTY/TTD number (800) 526-0844/or 711; TTY users (Spanish) (800) 501-0864/ or 711; and for Telebraille dial (877) 526-6670 at least five days prior to the meeting.*

-03/29/2013-

IllianaNEWS

PARTNERING FOR PROGRESS

Tier Two Issue 1 • April 2013

Economic Goals Require **Transportation Investment**

The northeast Illinois and northwest Indiana region have long served as the crossroads of American transportation and commerce. The ability to move freight through this region has been a cornerstone of the region's economy since before the railroads linked up transcontinental service. The concept of an Illiana Expressway goes as far back as Daniel Burnham's 1909 Plan for Chicago, but the idea really started to gain momentum in the last few decades as the south suburban region emerged as a multi-modal transportation hub, causing tremendous growth in population and traffic.

Illiana will provide traffic relief and economic development needed to sustain our vital economic position and quality of life.

The existing transportation network, including I-80, has been unable to support the travel demand, resulting in increased congestion and the need to provide better access to jobs. This demand will only increase and expand to the south, as the population is

expected to grow 175 % in the study area by 2040, and traffic at the intermodal centers will increase to over 45,000 trucks per day.

I-80/94 has expanded to its maximum capacity, so in 2010 Illinois Governor Pat Quinn and then Indiana Governor Mitch Daniels established a bi-state partnership to plan, and ultimately build, a new expressway linking I-65 in Indiana with I-55 in Will County. The Illiana is needed to create jobs and economic development for sustaining our vital economic position and quality of life in the Study Area, the south suburban and south of the lake regions, and the greater metropolitan area as a whole. 🌐

www.IllianaCorridor.org

Providing the Missing Link

Expanding Regional Economy

The Illiana Expressway will build a much-needed east-west link at the crossroads of America, improving regional and national travel by providing an alternative for interstate truck and auto traffic on I-80. This opens capacity for local traffic, relieves congestion on local roads, and creates more economic opportunities offered by lowered congestion.

The Illiana is projected to create or retain almost 9,000 local construction jobs immediately. The creation of almost 25,000 local jobs is projected for the long term.

The long-term economic output of the Illiana, estimated at over \$4 billion, will be far reaching.

It improves accessibility to one of the largest intermodal freight and port areas in the country.

Environmentally, it will help by reducing the number of miles traveled, and hours and fuel wasted, due to cars and trucks caught in traffic.

The Illiana will reduce the strain of truck traffic on local roads, improving safety, cutting commuting times and reducing congestion.

The value of travel time savings alone in the region would be at least \$5 billion over 75 years.

The Illiana is expected to reduce the vehicle miles of travel on arterial roads in study area by 26 million miles annually.

By connecting communities, the Illiana Corridor serves as a backbone for local planning of many other land use needs in this area of dynamic growth. 🌱

Creative Approaches

Deliver Benefits Sooner

The region has the ability to produce immediate economic growth and jobs, and sustain this activity into the future as it has done over the past 100 years, but we need to invest in transportation to support this growth. The benefits are demonstrated both along the Illiana Corridor and regionally, however funding to build the Illiana is limited. While the investment funds may come from worldwide sources, that money is invested locally, bringing jobs and businesses to the region for community residents, local/regional businesses, and the transportation industry.

Indiana is among the leaders for this sort of innovative delivery, having successfully implemented deals for the P3 financing for the Ohio River Bridge project, which created more than 4,000 local jobs and contracted 10% of the construction work to local disadvantaged business enterprises.

This cost-effective tool is a win-win-win for Illiana:

- 1 The states have less of a financial burden while creating needed infrastructure, saving Indiana and Illinois taxpayers;
- 2 Local businesses and labor benefit from jobs and increased economic development; and
- 3 Investors provide readily-available funds, so the project can be more quickly and efficiently completed, reducing stress on local residents and travelers 🌱

What Happens in TIER TWO?

As a result of Tier One studies, IDOT and INDOT have secured federal approval for the 2,000-foot-wide B3 planning corridor. Tier Two studies can now begin to identify a refined range of alternatives to be studied, focusing on solutions within the planning corridor.

During the Tier Two phase, the study team, along with stakeholder input, will work toward determining the best alignment within the 2,000-ft planning boundary of Corridor B3. The actual width may vary in some areas; the alignment may be wider for such items as accommodating highway interchanges, providing drainage and facilitating landowner access, or be narrowed for such items as avoiding impacts to sensitive environmental resources.

During this process additional and careful consideration of community needs including farm operations, emergency services, school routes and more will be studied.

The alignment location will move throughout this tier and the actual alignment will be determined in the fall of 2013. Maps will be updated on the project website at www.IllianaCorridor.org.

Stakeholder outreach will again be a top priority. Every effort will be made to avoid, minimize, and mitigate environmental impacts while addressing existing and future travel needs. The Tier Two phase is expected to be completed by early 2014.

Tier Two activities will continue with data collection and survey work. Other activities will include:

- > Preferred corridor refinement
- > Interchange locations and layout
- > Bridge and drainage studies
- > Determining overpass or underpass opportunities
- > Studies of sensitive environmental features
- > Studies of underground conditions
- > Exploration of financial studies
- > Land acquisition research

Stakeholder Outreach continues to be priority

In January 2013, the Tier Two phase kicked off with stakeholder efforts. To assist in the refinement of the roadway within the 2,000-ft planning boundary, extensive stakeholder outreach has been critical to the process. The purpose for ongoing outreach is to gain insight on how to minimize impacts where feasible. Ultimately, the insight and information gained from the stakeholder outreach will help determine the best B3 Corridor working alignment with the 2,000-ft planning boundary.

The Tier Two outcome is the selection of a Preferred Alternative and environmental footprint with plans for financing.

Initial Landowner Outreach Activities Conducted

In February 2013, the Illinois and Indiana Departments of Transportation (IDOT and INDOT) conducted landowner meetings in an effort to introduce the Tier Two process, Right of Entry (ROE) procedures, land acquisition processes, and gather information from the landowners by talking one-on-one with study team members. Much like the field surveys taking place in the corridor, the intent is to collect detailed information that will assist the study team in determining the impacts of locating the working alignment in various places within the 2,000-ft planning boundary.

(continued on page 4)

- Held **5** landowner meetings in February
- Over **850** people participated
- Presentation and Stations
- One-on-one discussions with study team members
- Met their Landowner Relations Representatives

The information gathered from the stakeholders is invaluable and extensive coordination will continue throughout the Tier Two Process. This information will assist the study team in minimizing impacts to properties and the refinement of the B3 Corridor. 🌐

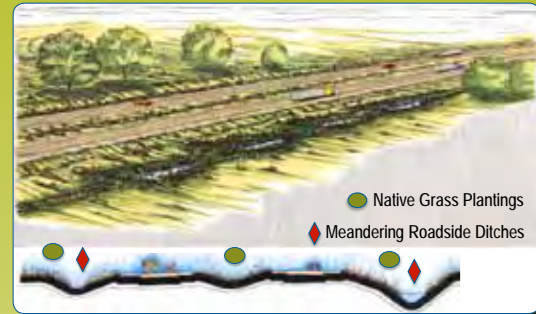

One-on-One Stakeholder Meetings

Tier Two activities kicked off with over 40 agency stakeholder one-on-one meetings and reaching 406 parcel landowners. Meetings were conducted with municipalities, counties, townships, Metropolitan Planning Organizations (MPOs), Emergency Service Providers, School Districts, Property Owners, Forest Preserve/Park Districts, and interest groups.

What did we hear?

- Input on location of interchanges
- Input on keeping roads open
- Swapping “road kept open” locations
- Adding locations of roads kept open
- Frontage roads or relocated roads also are considered
- Need for collaboration with others on land use planning 🌐

Corridor Sustainability and Context Designs

The project will strive to incorporate sustainable practices into project design. By balancing economic, environmental, and community objectives, sustainable practices potentially can reduce the environmental impacts of a project and, at the same time, create financial and operational benefits, as well as social benefits for the community at large. Sustainable projects attempt to meet existing needs without jeopardizing the ability of others to meet future needs.

IDOT and INDOT are using Context Sensitive Solutions (CSS) on this project. CSS is a collaborative approach that involves all stakeholders to develop a facility that fits into its surroundings and preserves scenic, aesthetic, historic, and environmental resources, while maintaining safety and mobility. The purpose of CSS is to gather and consider input on the project from all interested stakeholders, and to encourage design flexibility to incorporate environmental and community values as well as meet transportation objectives.

Environmental stewardship will focus on resource agency coordination and permit requirements, as well as recognition of resource planning of MPOs, forest and park districts, and other local agencies.

Key Design Components

Naturalized/Native Planting

- > **RESTORE** diverse plant ecosystems; native grasses, wildflowers, shrubs, and trees
- > **CREATE** wildlife corridors with a vegetative cover that provides food source and habitat
- > **STABILIZE** graded slopes, drainageways, and ponds
- > **SCREEN** objectionable views and frame and direct attention to positive views
- > **SOFTEN** engineered slopes that cannot meet desired grading parameters
- > **VARY** establishment techniques; whips, cuttings, seeding and nut/seed beds 🌐

TIER TWO Purpose and Need

- **Improve** regional mobility, travel times, and access to jobs by addressing growing east-west regional and national traffic demand that is required to traverse the region and South Sub-Region, regardless of the trip origin or destination;
- **Alleviate** local system congestion and improve local system mobility, and address lack of connectivity for Will, Kankakee, and Lake Counties to meet and support projected traffic growth from increased population, employment, transportation, and economic development, including the lack of continuous, higher functional classification east-west travel routes in the Study Area, and improving travel times; and
- **Accommodate** market demands for the increasing freight logistics transportation and more efficient freight movement, including better accommodation of regional and national truck trips.

Since the conclusion of Tier One activities, the Purpose and Need has been updated to reflect the following:

- > Updated to indicate **CORRIDOR B3 AS THE SELECTED ALTERNATIVE** of the Tier One Single Document FEIS/ROD
- > Updated to indicate **THE PROJECT IS FUNDED THROUGH THE TIER TWO EIS**, and that further coordination will be needed with CMAP and NIRPC for inclusion in their long-range regional plans
- > Added **“IN A MANNER CONSISTENT WITH THE COMMITMENTS IN THE TIER ONE RECORD OF DECISION”** to the Purpose statement

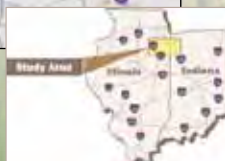

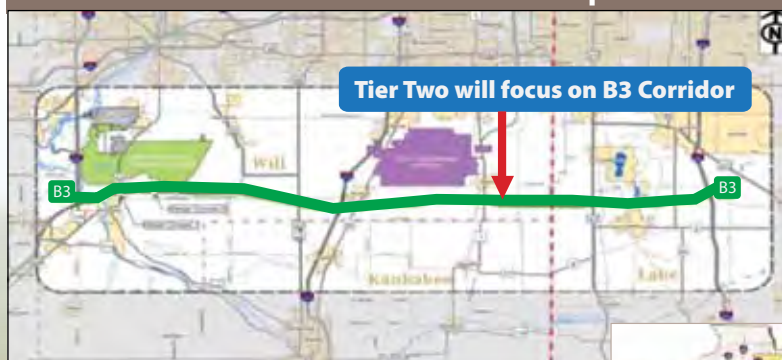

The purpose and need document can be found on the project website (www.illianacorridor.org/information_center/library_tier_two.aspx)

TIER ONE ROD SIGNED JANUARY 2013

B3 Corridor and No-Action

Alternatives move forward

B3 Corridor Location Map

After extensive public outreach and detailed environmental studies, the Tier One of the Illiana Corridor project was completed in January 2013.

The Illinois Department of Transportation (IDOT), the Indiana Department of Transportation (INDOT), and the Federal Highway Administration (FHWA) have completed the Tier One of the Illiana Corridor project, advancing one corridor and a no-action alternative into Tier Two of the project. The recommended corridor, known as “B3,” extends from I-55 near Wilmington, Illinois, to I-65 near Cedar Lake, Indiana, and was selected as the preferred alternative during the Tier One of the planning process.

This project is the first in the nation to use a combined environmental documentation and approval process using the latest federal highway authorization bill, also known as MAP-21. Both states have accelerated the work to gain this approval to expedite economic development and job creation. This process also enables prompt decision making to inform potentially affected stakeholders more quickly.

Next Steps

The next step is to gather input and additional technical findings. Field survey activities, one-one-one stakeholder meetings and landowner meetings will continue. A second round of Public Meetings will be held this summer to gather information and opinions on alignment and interchange alternatives, environmental and community impacts, road connectivity changes and other project issues. Determination of a right-of-way footprint and final recommendation for road connectivity changes will be ready by fall 2013, when a Public Hearing will be conducted to formally record comments that will be incorporated into the Final Tier Two Environmental Impact Statement (FEIS).

The Tier Two phase is anticipated to be completed by early 2014.

PARTNERING FOR PROGRESS

You're Invited!

Join us at the Tier Two Illiana Public Meeting

www.illianacorridor.org

Tier Two Illiana Corridor Study Public Meeting #1

Based on technical analysis done as part of Tier One Illiana Corridor studies (completed in January 2013) and public comments, Corridor B3 and the No-Action Alternative have been identified and carried forward into the second tier of the project.

IDOT and INDOT are now hosting open house public meetings regarding Tier Two where the focus will shift from the original broad 952 square-mile study area to the communities, landowners and access needs along the preferred corridor.

The purpose of these meetings is to explain the Tier Two process which includes the refinement of the preferred corridor, interchange locations and layout, and determining overpass and underpass opportunities, environmental analysis and continued stakeholder outreach. IDOT and INDOT will consider your input as the detailed planning process moves forward. The meetings will be an open house format, and interested persons may attend anytime between 5:00 and 8:00 p.m. There will be a continuous PowerPoint presentation, and attendees will have the opportunity to view study exhibits and speak with IDOT, INDOT and study team representatives on a one-on-one basis. A question and answer forum will be held at 6:00 p.m. each day.

Tier Two

Welcome!

Public Meeting

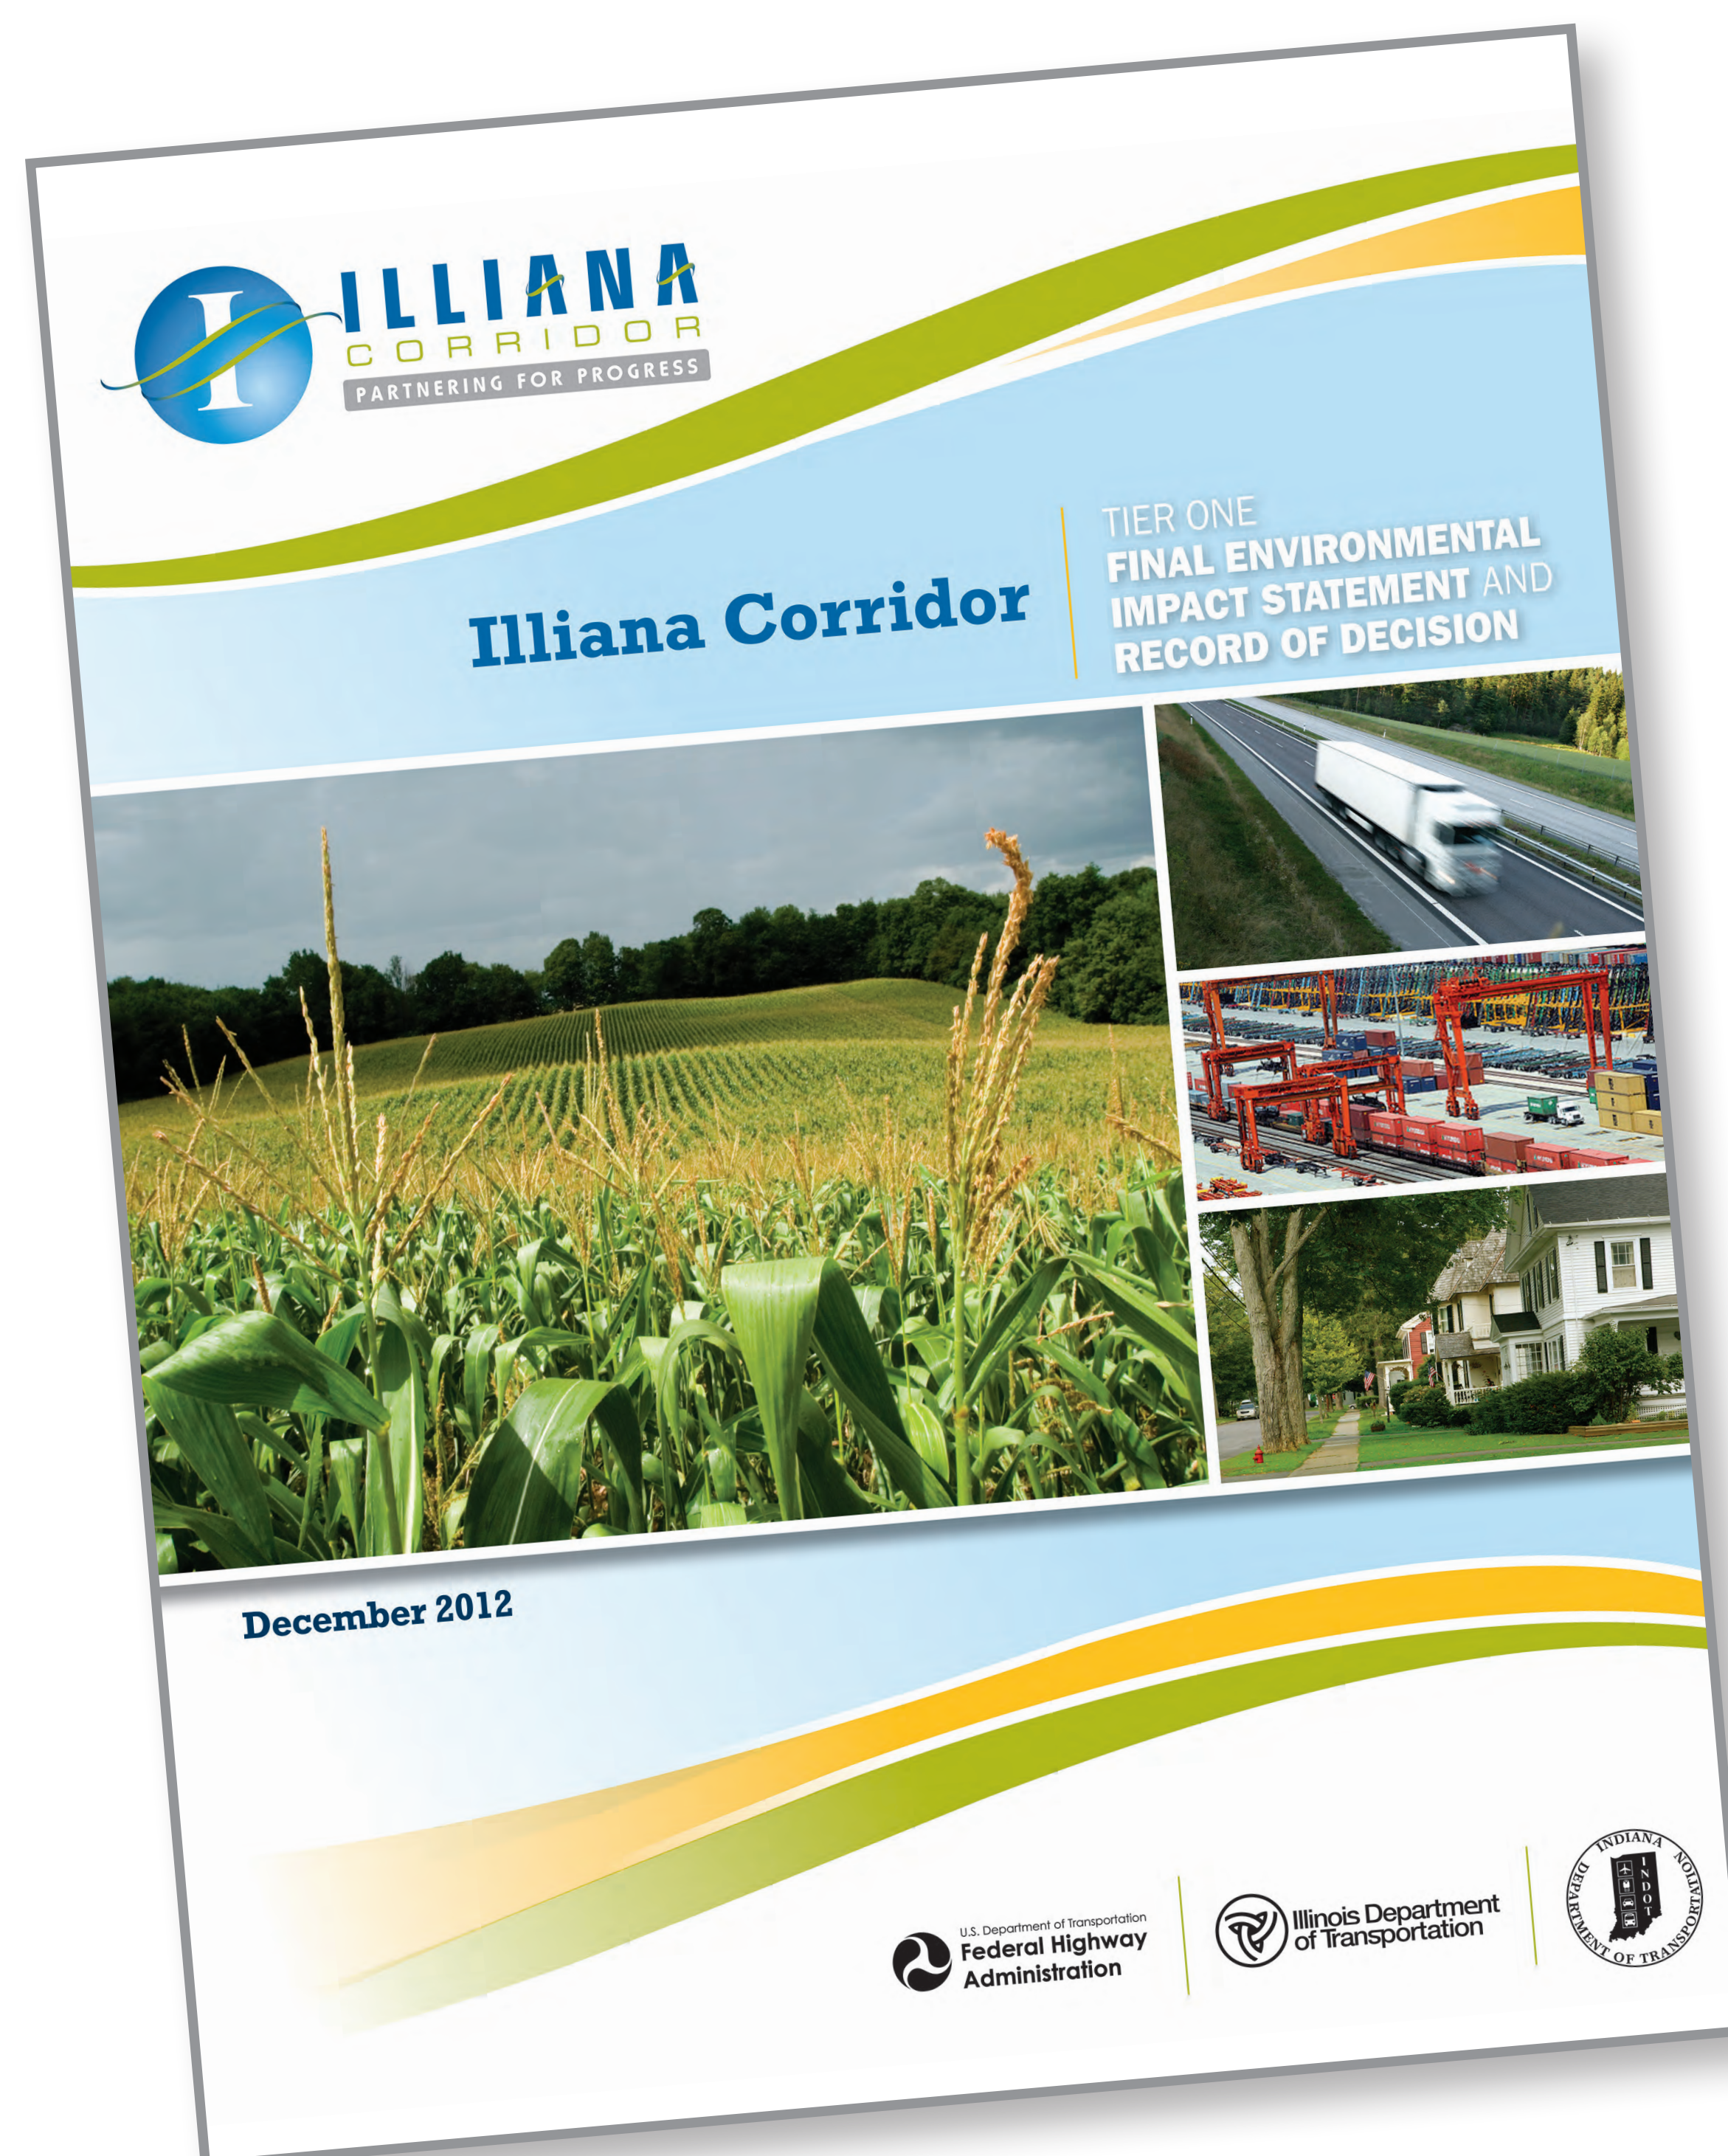

PARTNERING FOR PROGRESS

Illinois Department
of Transportation

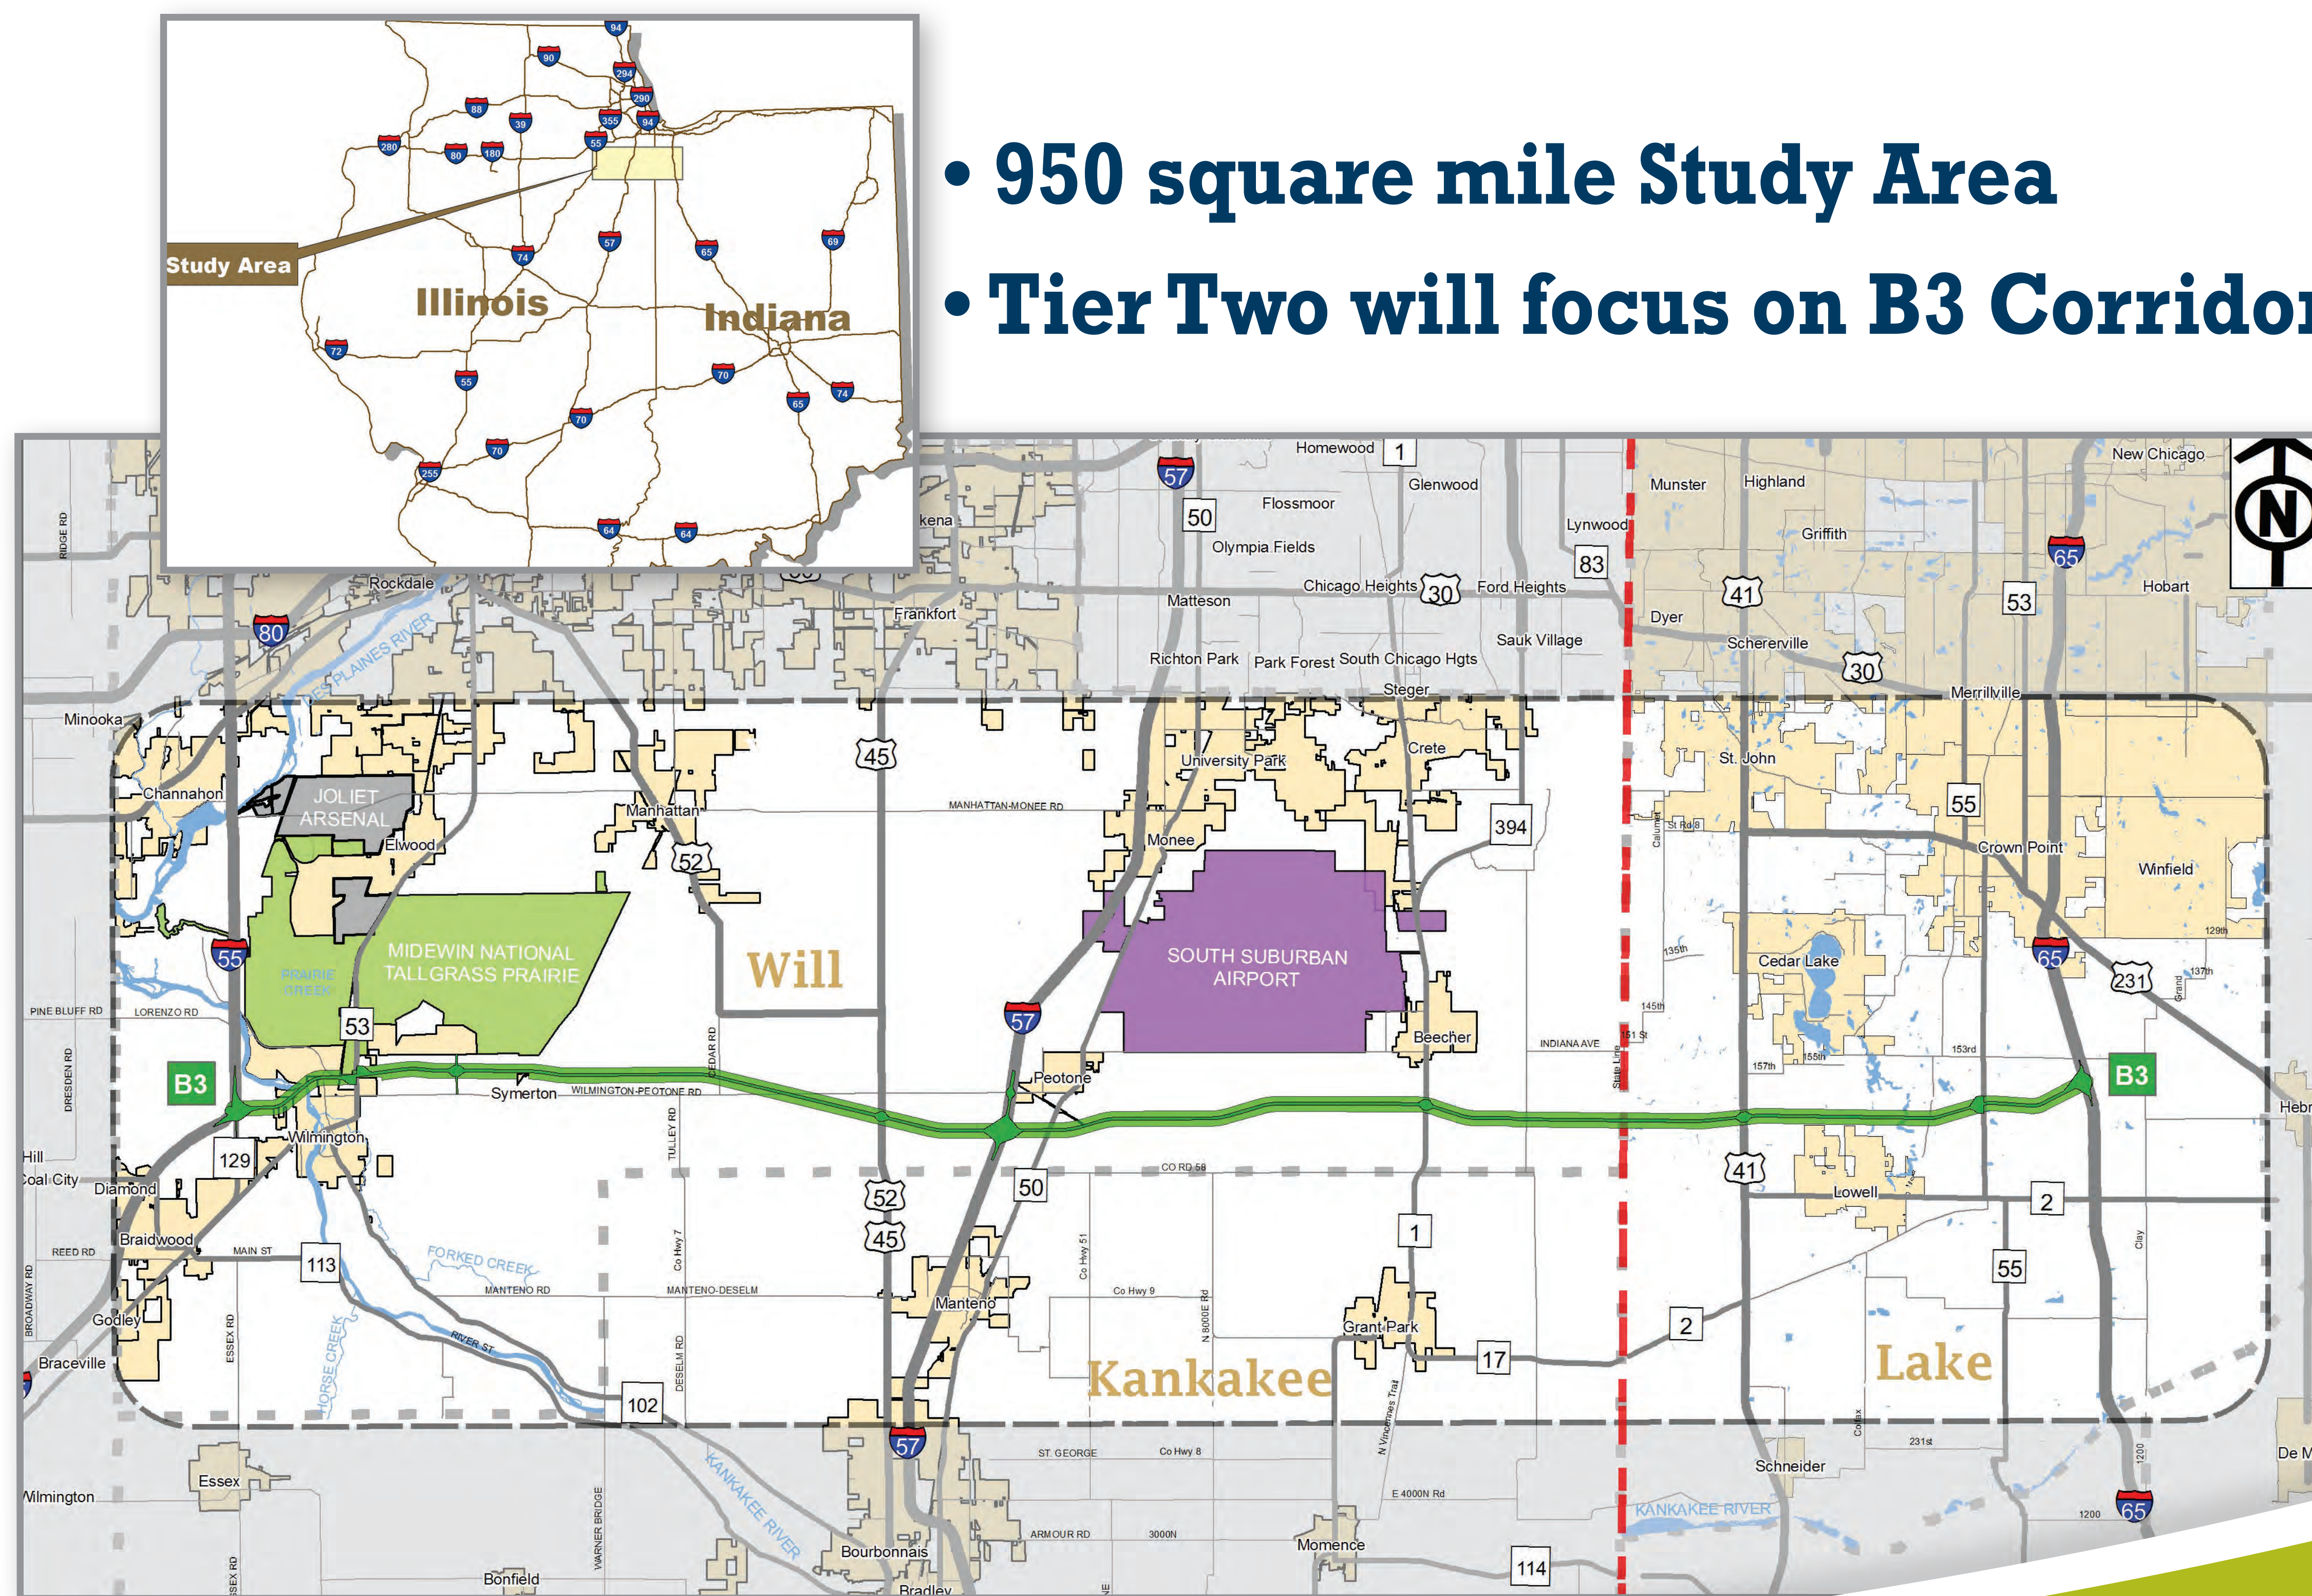

Tier One Recap

- **Tier One “Single Document” Final EIS/ROD approved January 17, 2013**
- **First “single document” in country approved under new MAP-21 streamlining provisions**
- **Financing strategies for alternatives, including toll financing/public-private partnership**

Tier Two Study Area

- 950 square mile Study Area
- Tier Two will focus on B3 Corridor

**SINGLE DOCUMENT
(Combined Final EIS/ROD):
B3 AND NO-ACTION**

- Less environmental impacts
- Higher travel performance
- Lower construction costs
- Greater stakeholder support

**ALTERNATIVES
CARRIED FORWARD
TO TIER TWO**

What Happens in Tier Two?

- **Determine best working alignment within the 2,000 ft. planning boundary**
- **Refine the conceptual roadway footprint**
 - Coordinate with communities land planning
 - Coordination with schools, emergency services
 - Find mitigation and enhancement options
 - Locate interchanges
- **Alignment location will move**
- **Actual alignment will be determined Fall 2013**

Tier Two Outcome

Tier One

STAKEHOLDER INVOLVEMENT

Identify
Transportation
Needs

Develop & Evaluate
Alternatives for
All Modes

Select
Preferred
Alternative

COMPLETED JANUARY 2013

Tier Two

STAKEHOLDER INVOLVEMENT

Detailed Engineering and Environmental
Studies of Preferred Alternative

COMPLETION
WINTER/EARLY SPRING 2014

- Continuation of NEPA process
- Context Sensitive Solutions
- Field studies
- Financing strategies for alternatives

TIER TWO OUTCOME:

Preferred Alternative
and environmental
footprint with plan
for financing.

Tier Two Purpose and Need

Since the conclusion of Tier One activities, the Purpose and Need has been updated to reflect the following:

- 1 Update to indicate **Corridor B3 as the selected alternative** of the Tier One Single Document FEIS/ROD
- 2 Update to indicate **the project is funded through the Tier Two EIS**, and that further coordination will be needed with CMAP and NIRPC for inclusion in their long-range regional plans
- 3 Added **“in a manner consistent with the commitments in the Tier One Record of Decision”** to the Purpose Statement

Stakeholder Input

Technical Analysis

Purpose & Need

A concise statement of the transportation problems to be addressed

- 1 Improve Regional Mobility
- 2 Address Local System Deficiencies
- 3 Provide for Efficient Movement of Truck Freight

▲ CPG/TTF Meetings

One-On-One Meetings

Tier Two activities kicked off with over 40 agency stakeholder one-on-one meetings.

Meeting were conducted with municipalities, counties, MPO's, Emergency Service Providers, School Districts, Property Owners, Forest Preserve/Park Districts, and interest groups.

WHAT WE HEARD:

- Input on location of interchanges
- Input on keeping roads open—emergency services, school districts, local and county highway departments (maintenance), agriculture, other local residents.
- Swapping “road kept open” locations
- Adding locations of roads kept open
- Frontage roads or relocated roads also are considered
- Need for collaboration with others on land use planning

Landowner Meetings

Exclusive Landowner Outreach Activities Conducted:

Held five landowner meetings in February

Over 850 people participated

Presentation and Stations

One-on-one discussions with study team members

Met their Landowner Relations Representatives

WHAT WE HEARD:

(FROM LANDOWNERS WITHIN THE 2000' CORRIDOR AT THE RECENT LANDOWNER OUTREACH MEETINGS)

- **Opinions on road closures and adverse travel**
- **Access impacts if partial property is acquired**
- **Farming impacts if partial property is acquired**
- **Discovered locations of field tiles, well and septic**
- **Gathered information on wetlands and flow of water**
- **Concerns regarding secondary impacts**
- **Impacts on quality of life**
- **Overall land acquisition process**
- **Some willing sellers**

Potential Alternatives

POTENTIAL ALTERNATIVES INCLUDE:

- **Continuation of NEPA process**
- **Context Sensitive Solutions**
- **Field study and GIS based impact assessment**
- **Financing strategies for alternatives**

Context Sensitive Solutions (CSS)

An interdisciplinary approach that seeks effective, multimodal transportation solutions by **working with stakeholders** to develop, build, and maintain cost-effective transportation facilities which fit into and reflect the project's surroundings.

CSS is used by IDOT and INDOT in the planning and design of major projects.

KEY PRINCIPLES

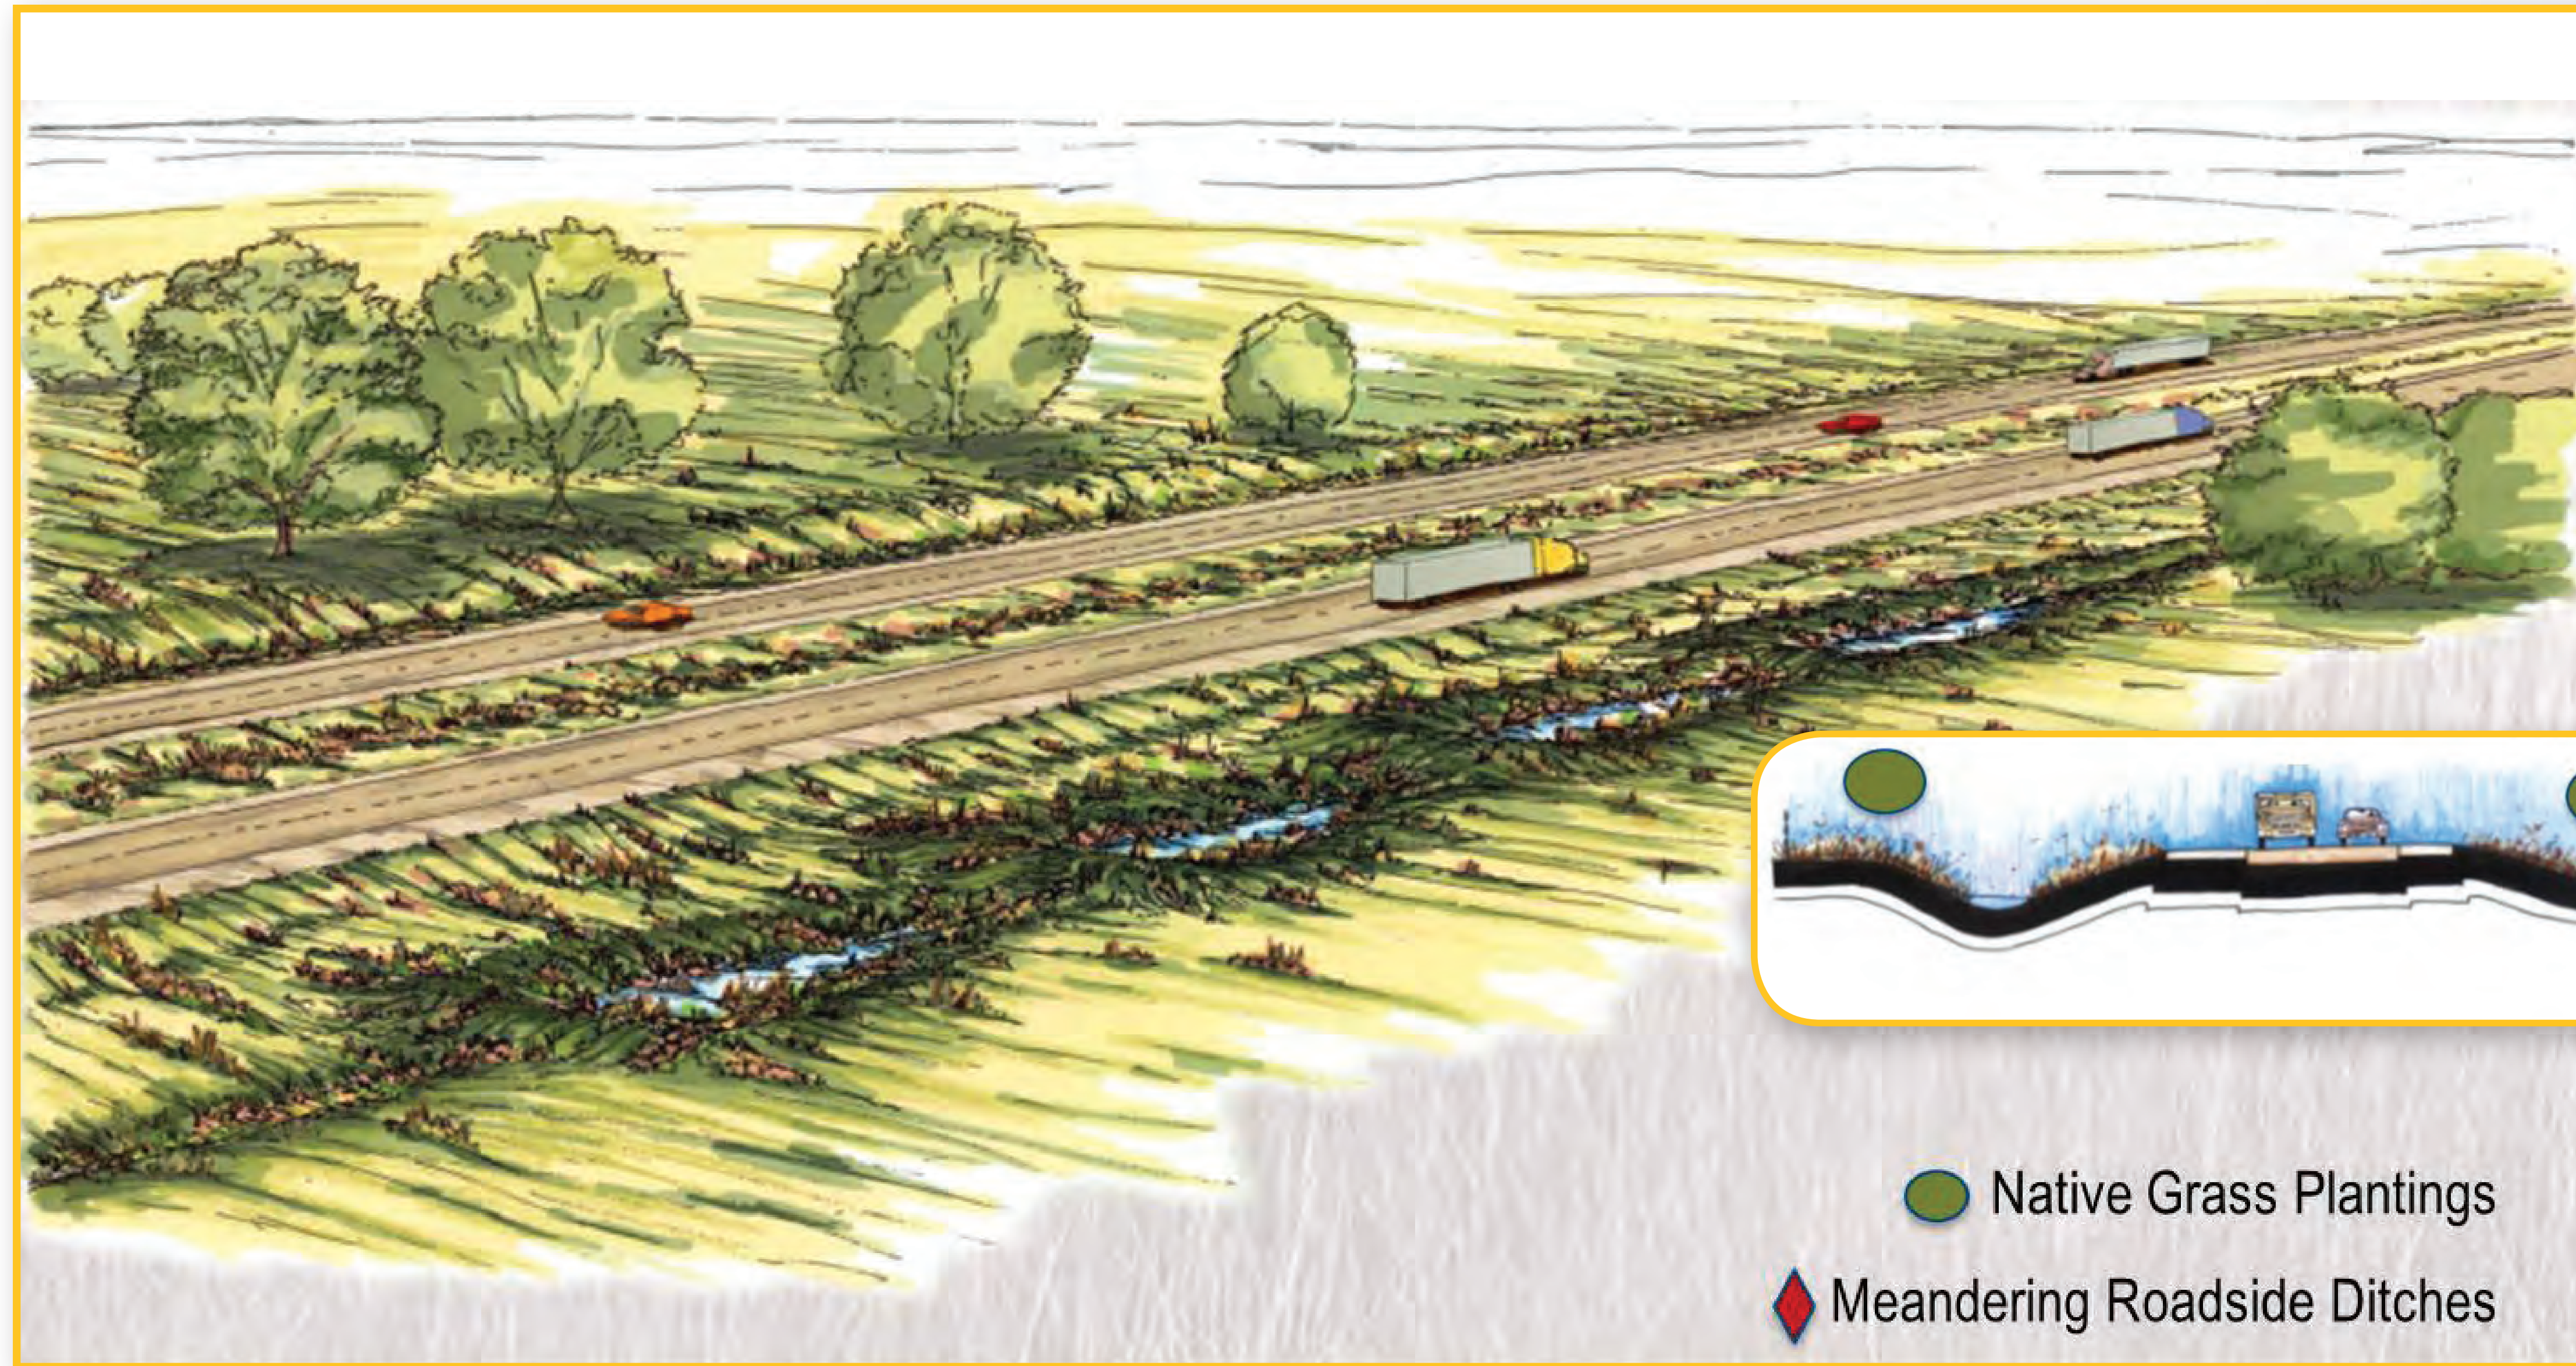

- Balance mobility, community needs, and environment, with safety paramount
- Involve stakeholders early and often in the planning process
- Address all transportation modes
- Involve all appropriate disciplines in planning and design
- Consider flexibility as part of design
- Incorporate aesthetics into design

Next Steps

- **Gather input and additional technical findings**
- **Land surveys continue**
- **Property owner on-site meetings**
- **Determine right-of-way footprint by Public Hearing – Fall 2013**

TIER TWO PUBLIC MEETING #2:

June 2013

Questions and Answers

Questions? Study team members will respond to anonymous questions presented by a moderator beginning at 6:00 p.m. Written questions will be randomly selected and presented to the study team panel for a response. If you have a question after viewing the PowerPoint presentation, please write it on this card and drop it in the question box. If time does not allow us to answer your question, or your questions or issues are about specific properties or individuals, please feel free to speak to one of the Study Team representatives in the exhibit room. Thanks for your participation!

- If you have a question after viewing the PowerPoint presentation, please write it on this card and drop it in the question box.
- Study team members will respond to anonymous questions presented by an independent moderator beginning at 6:00 p.m.
- Also, please feel free to speak to one of the Study Team representatives in the exhibit room.

Thanks for your participation!

ILLIANA CORRIDOR
PARTNERING FOR PROGRESS

Comment Form
Public Meeting #1

Circle One: **April 16th, 2013** **April 18th, 2013**
ILLINOIS **INDIANA**

The Illinois Department of Transportation (IDOT) and Indiana Department of Transportation (INDOT) are hosting the first Open House Public Meeting for Tier Two. The purpose of today's meeting is to review the completed Tier One process, explain what happens in Tier Two, update you on the Purpose and Need, discuss corridor refinements and the range of alternatives, stakeholder outreach and present initial Context Sensitive Solutions concepts.

IDOT and INDOT encourage your input throughout the development process of this project. Please place your comment forms in the box marked COMMENTS; or fax to (847) 705-4159; or fold in thirds, tape closed, place a stamp and mail. In addition, the Project's website also accepts comments (www.illianacorridor.org).

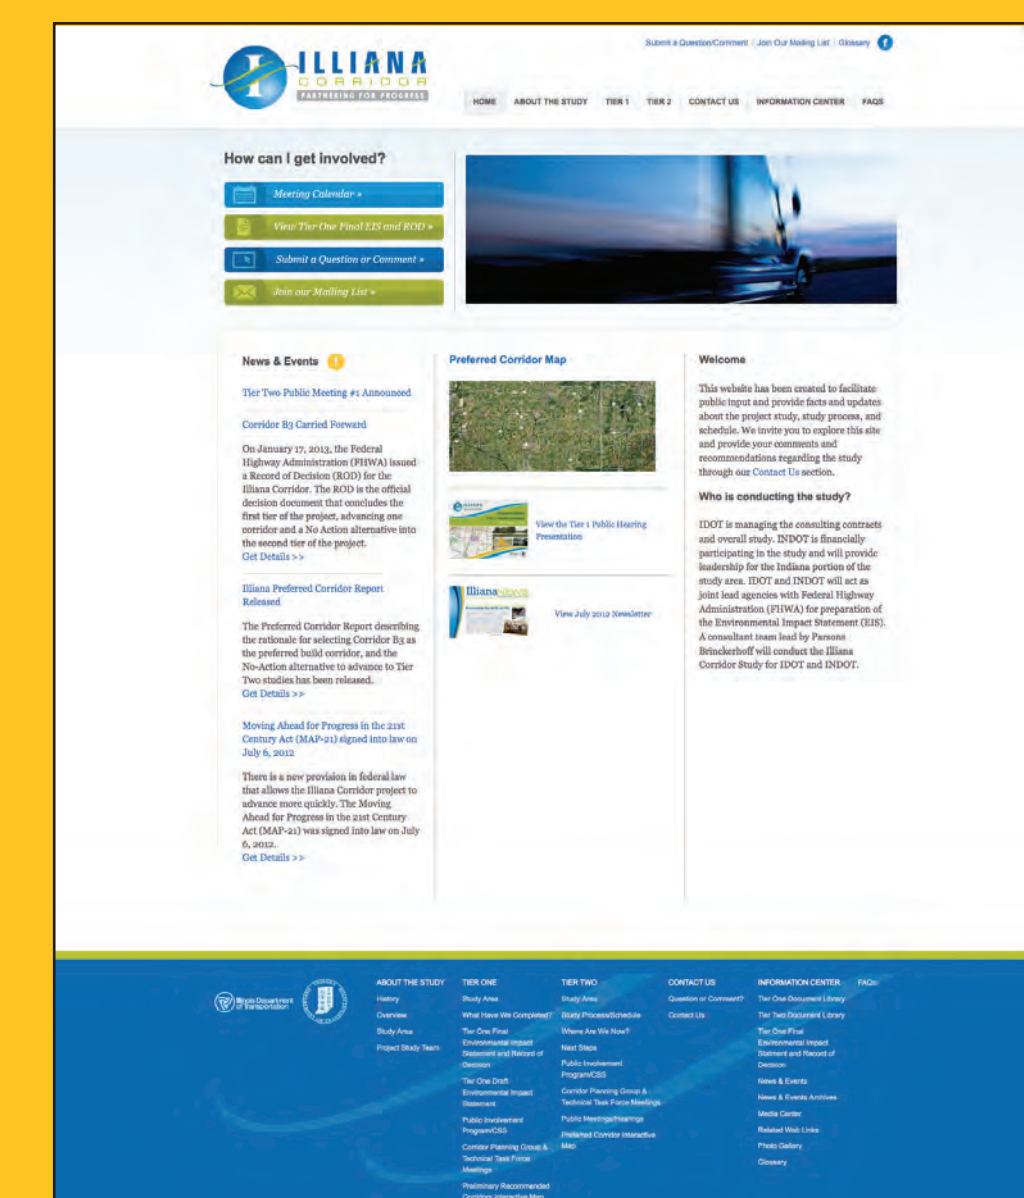

Please send comments related to this meeting by May 2, 2013. Comments received by this date will become part of the public record for this meeting.

Why P3 for the Illiana Corridor?

A Public Private Partnership (P3) provides enormous benefits to all stakeholders:

*P3s help finance much-needed infrastructure projects
without the heavy burden on state funds*

*Local businesses and workers benefit from jobs and increased
economic development all along the corridor*

*Global investment from the private sector = significant time savings—
up to 15 years faster to complete large public works projects;
less stress on residents and travelers*

P3 FINANCING IS ESTIMATED TO RESULT IN:

- **9,000 short-term construction jobs (in Indiana, Illinois and throughout the region)**
- **\$1.4 billion contracted with local and regional companies**
- **\$3.9 billion dollars invested in the local economy along the corridor**
